The Committee deliberated upon the shifting of M.A. (Yoga Science) under SFS from Faculty of Education to Faculty of Interdisciplinary Studies.

1. The Committee observed that:

(a) Yoga Science is interdisciplinary in nature. It is a socially relevant holistic science by its nature and scope and requires an understanding and inputs derived across various disciplines. The principles, theory and philosophy of yoga blended with modern tenets of anatomy, physiology, bio-chemistry, health management, stress management, positive health, communication skill, to name a few, comprise its essential elements.

(b) The Graduate Attributes of M.A. (Yoga Science) Program will be inculcated in true spirit only when the courses of theprogram are taught by persons with appropriate qualification in Yoga Science.

(c) The shifting of MA Yoga Science (under SFS) program to Faculty of Interdisciplinary Studies may enable the University to pool the resources across disciplines as an interim arrangement/ measure.

In view of above, the committee recommends that M.A. (Yoga Science) Program may be shifted from Faculty to Education to Faculty of Interdisciplinary Studies.

2. The Committee also proposesthat the University may explore the possibility of establishing a new **"Centre for Yogic Studies"** to run various programs related to Yoga and allied fields.
