

One Week Workshop-cum-Training Programme

On

“Statistical Techniques and Data Analysis using Software”

[Feb. 25 to March 01, 2020]

The Department of Statistics, M. D. University, Rohtak is organizing a one week workshop-cum-training programme on “**Statistical Techniques and Data Analysis using Software**” for the Students/Research Scholars/Faculty Members of the department in particular and of other in general during **Feb. 25 to March 01, 2020**. The purpose of this Workshop is to enrich the level of the participants in Data Analysis using most powerful and widely used Statistical Software Package like STAT CRAFT, R Language and PYTHON. The Workshop will also concentrate on transforming the participants into competent and confident users of Statistical Software to enable them to conduct independent analysis by taking a more applied approach to conventional Statistics. The experts from Industries and Academic Institutions/Universities will provide training to the participants on the theme of the workshop. The lectures on Statistical Techniques (Bio-statistical Models & Sampling Tools) will be delivered by the experts from renowned Institutions during this workshop. For this purpose there is no registration fee. However, preference will be given to the students/research scholars of the Department. The participants are advised to come with their Laptops. The programme will start at 09:00 AM on 25-02-2020 in the Department of Statistics.
