Dear Sir/Madam

Department of Genetics and IPR Cell, M. D University are organizing one day National Workshop on “**Intellectual Property Rights Protection**”

At present Life sciences industries, stakeholders and their counsel face an increasing number of legal disputes related to intellectual property rights (IPRs) and technology with a significant business, financial and reputational impact.

There is requirement of a carefully integrated dispute resolution plan/strategy to protect the value of technologies and associated IP rights. Dispute resolution strategies may include out-of-court dispute resolution mechanisms. The workshop will provide an overview of the contractual framework of collaborations in life sciences, relevant IP matters, actual and potential disputes, and options to resolve such disputes. Eminent experts in the field of IPR have been invited as the Key Speakers in this event.

You are cordially invited to register for this event and attend the same.

There is no registration fee for the event.

Department Profile

Department of Genetics, established in 2009, is internationally known for its contributions in *Drosophila* Genetics, Medicinal Plant Genetics, Human Genetics, Microbial Genetics and Malaria Genetics. Department is running two courses, M.Sc. Genetics and M.Sc. Forensic Science which have been strengthened with research and doctoral programme in the frontier areas. Department has been financially strengthened by the grants from Department of Science and Technology, Government of India under FIST Program, University Grant Commission under Innovative and SAP Programmes. The Faculty members have been able to win individual research projects funded by various national funding agencies like DBT, DST, CSIR, UGC, NMPB, ICMR etc.

IPR Cell, MDU

The IPR Cell of Maharshi Dayanand University has been established to specifically manage and coordinate the activities associated with the commercialization of research which will help the University to retain intellectual property and appropriate licensing revenues from interested partners. The aim of the IPR cell is to cater the protection of the invention created by the researcher(s) of the University.
