## About the Conference

The two day International Conference aims to cover the Innovations and Technology Transforming Pharmaceutical Education and Research. The innovations carried out in various spheres of research like drug discovery & development, drug delivery systems using synthetic/natural products including preclinical, clinical and translational research will be highly beneficial to the society. A stimulation, spark and motivation in young researchers will improve the adoption and utilization of the recent technological transformations. This scientific programme of the conference will deliberate upon diverse areas such as pharmaceutical education, regulatory affairs, drug delivery systems, cellular and molecular mechanisms and opportunities in the pharmaceutical sector. The scientific sessions will provide ample opportunity for vivid discussions in order to foster scientific exchange. The Conference will also include oral and poster presentations for academia and industry professionals.

## About the Association of Pharmaceutical Teachers of India (APTI)

An association founded by the pioneers of Pharmacy education in India in 1966 by leading personalities like Prof. M.L. Shroff, Prof. G.P. Shrivastava and others, has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objective, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in achievement of excellent standards and to develop new technology methods in pharmacy education through the exchange of views amongst the teaching members. A teacher apart from being an educator also contributes to science as a researcher, helps in business development as a consultant to pharmaceutical industries and also creates social awareness as a community pharmacist.
