...about how big... projects can... on OTT without... each other.
 Kammu says, "When you look... the library, you see that at a... budget film is right next to... independent film, or a... small film. It is the consumer... who can decide what he wants... to watch, what will survive the... test of time on a platform like... that."

Right before the release of... outcase on OTT, a contro-

very ensued where in many... felt that there was a discrimi-... natory behavior being meted... out to his film on the platform... as compared to other big star... cast films, something that... even Kammu talked about.

"It wasn't a complaint. I... think what happened came... from a place of ignorance that... I wasn't invited to be a part of

a session to announce the... release of my film. My only... problem was that if every film... has a representation, then... why not a film like ours," he... questions. However, he is... quick to add that it is now all a... thing of the past. "I think OTT... is a space which is not bound... by box office and not bound by... the level of star or budget of a

film. I hope it stays that way... always. That's the beauty of... OTT platforms. I have moved... on from that anger and I don't... hold to that. The important... thing was to put the film out... there. Even if it is a smaller... film, it deserves a little more... push and love than the others... that was all about it," he con-... cludes.
