30.	'Open all the windows'. In this sentence, the verb is used  (1) Transitivity (2) Intransitivity (3) Reflexively (4) None of the above

Question No.	Questions
	<b>(Comprehension)</b>
	Read the passage carefully and answer the questions :
	<p>Growing up in the Naga hills, where it rains five months a year, I have learned the interconnectedness of the seasons from childhood. The monsoon in the Naga hills goes by the native name, 'Khuthotei' (which means the rice growing season). It lasts from May to mid - October. The local people believe that Durga Puja in October announces the end of rain. After that, there may be short winter showers, and the spring showers in March and April. Finally begins the big rain in May ; proper rain storms accompanied by heart-stopping lightning and ear-splitting thunder, just like a light and sound show that can go on for hours. This is the season when people use the word 'sezuo' to refer to the week-long rains, when clothes don't dry and smell of mould, when fungus forms on the floor and when you cannot see the moon or the stars because of the rain clouds. But you learn not to complain. Rain, after all, is the farmer's friend and brings food to the table. Rituals and festivals centre around the agricultural rhythm of life, which is occupation of about 70 percent of the population. Once the monsoon is set in, field work is carried out in earnest and the work of uprooting and transplanting paddy in flooded terrace fields is done. The months of hard labour are June, July and August. In August, rain also called 'phrogii', is a sign that the time for cultivation is over. If any new grain seeds are sown, they may not sprout; even if they do sprout, they are not likely to bear grain. The rain acts as a kind of farmer's almanac. The urban population of school goers and office-goers naturally dislikes the monsoon and its accompanying problems of landslides, muddy streets and periodic infections. One needs to have the heart of a farmer to remain grateful for the watery days, and be able to observe the many</p>

Question No.	Questions
	<p>kinds of rain. Each rain period has a job to fulfil; October rain helps garlic bulbs to form, while 'kumunyo' rain helps the rice bear grain. End October is the most beautiful month in the Naga hills, as the fields turn gold and wild flowers bloom over the slopes, all heralding the harvest. Prayers go up for protecting the fields from storms, and the rains to retreat because the grain needs to stand in the sun and ripen. The rain does retreat so thoroughly from the reaped furrows that the earth quickly turns hard. The months of rain become a distant memory until it starts again next year.</p> <p>On the basis of your understanding of the above passage, do as directed.</p>
31.	<p>What is the native name of the monsoon in the Naga hills for the rice-growing season ?</p> <p>(1) Muddy rain                      (2) Sezuo (3) Khuthotei                      (4) None of the above</p>
32.	<p>When does big rain come in Naga hills ?</p> <p>(1) Throughout the year              (2) In May (3) Durga Puja                      (4) All of the above</p>
33.	<p>The week long rains in the Naga hills with rain storms having thunder and lightning are called :</p> <p>(1) Sezuo                                      (2) Mizo (3) Khuthotei                              (4) None of the above</p>

Question No.	Questions
34.	<p>The months of hard labour are June, July and August in the Naga hills, because :</p> <p>(1) it is flowering season (2) it is rainy season (3) the fieldwork is carried out by uprooting and transplanting paddy (4) none of the above</p>
35.	<p>'End October ..... all heralding the harvest'. Heralding means</p> <p>(1) indicating (2) announcing (3) signalling (4) all of the above</p>
36.	<p>The rain is like a calendar for farmers. Find a word for calendar in the paragraph</p> <p>(1) incessant (2) almanac (3) rhythm (4) all of the above</p>

Question No.	Questions
37.	The grain needs to stand in the sun and ripen, therefore (1) there should be incessant rain (2) rainstorms are welcome (3) the rain should retreat (4) all of the above
38.	'Phrogii' indicates that (1) the time for cultivation is over (2) new grain seeds, if sown, may not sprout. (3) if seeds sown sprout, they are not likely to bear grain. (4) all of the above
39.	What does Durga Puja mean to the farmers of the Naga hills ? (1) The end of rainy season (2) There will not be muddy streets (3) To sow and harvest (4) None of the above
40.	In the Naga hills, the ..... helps the rice bear grain. (1) kumunyo rain (2) big rain (3) no rain (4) none of the above

Question No.	Questions
41.	Noted poet and Litterateur ..... was awarded the prestigious Saraswati Samman, 2021, for his collection of poems 'Mein to Yahan Hun'. (1) Purushottam Laxman Deshpande (2) Agha Shahid Ali (3) Khushwant Singh (4) Prof. Ramdarash Mishra
42.	Basu Bevinagidat has been awarded Kendra Sahitya Akademi Award for 2021 for his biography of (1) Jawahar Lal Nehru (2) B. R. Ambedkar (3) Mahatma Gandhi (4) None of the above
43.	Who is the writer most noted for his satire 'Raag Darbari', getting Sahitya Akademi Award. He is recipient of several awards including Jnanpith Award in 2011. (1) Shrilal Shukla (2) Amarkant (3) Mohan Rakesh (4) Uday Bhanu Hans

<b><u>(Comprehension)</u></b>	
Read the passage carefully and answer the questions :	
<p>Growing up in the Naga hills, where it rains five months a year, I have learned the interconnectedness of the seasons from childhood. The monsoon in the Naga hills goes by the native name, 'Khuthotei' (which means the rice growing season). It lasts from May to mid - October. The local people believe that Durga Puja in October announces the end of rain. After that, there may be short winter showers, and the spring showers in March and April. Finally begins the big rain in May ; proper rain storms accompanied by heart-stopping lightning and ear-splitting thunder, just</p>	

Question No.	Questions
	<p>like a light and sound show that can go on for hours. This is the season when people use the word 'sezuo' to refer to the week-long rains, when clothes don't dry and smell of mould, when fungus forms on the floor and when you cannot see the moon or the stars because of the rain clouds. But you learn not to complain. Rain, after all, is the farmer's friend and brings food to the table. Rituals and festivals centre around the agricultural rhythm of life, which is occupation of about 70 percent of the population. Once the monsoon is set in, field work is carried out in earnest and the work of uprooting and transplanting paddy in flooded terrace fields is done. The months of hard labour are June, July and August. In August, rain also called 'phrogii', is a sign that the time for cultivation is over. If any new grain seeds are sown, they may not sprout; even if they do sprout, they are not likely to bear grain. The rain acts as a kind of farmer's almanac. The urban population of school goers and office-goers naturally dislikes the monsoon and its accompanying problems of landslides, muddy streets and periodic infections. One needs to have the heart of a farmer to remain grateful for the watery days, and be able to observe the many kinds of rain. Each rain period has a job to fulfil; October rain helps garlic bulbs to form, while 'kumunyo' rain helps the rice bear grain. End October is the most beautiful month in the Naga hills, as the fields turn gold and wild flowers bloom over the slopes, all heralding the harvest. Prayers go up for protecting the fields from storms, and the rains to retreat because the grain needs to stand in the sun and ripen. The rain does retreat so</p>

Question No.	Questions
61.	<p>thoroughly from the reaped furrows that the earth quickly turns hard. The months of rain become a distant memory until it starts again next year.</p> <p>On the basis of your understanding of the above passage, do as directed.</p> <p>What is the native name of the monsoon in the Naga hills for the rice-growing season ?</p> <p>(1) Muddy rain                      (2) Sezuo (3) Khuthotei                      (4) None of the above</p>
62.	<p>When does big rain come in Naga hills ?</p> <p>(1) Throughout the year      (2) In May (3) Durga Puja                      (4) All of the above</p>
63.	<p>The week long rains in the Naga hills with rain storms having thunder and lightning are called :</p> <p>(1) Sezuo                              (2) Mizo (3) Khuthotei                      (4) None of the above</p>

<b>(Comprehension)</b>	
Read the passage carefully and answer the questions :	
Growing up in the Naga hills, where it rains five months a year, I have learned the interconnectedness of the seasons from childhood. The monsoon in the Naga hills goes by the native name, 'Khuthotei' (which	

SET-“Y”  
Code - D

Question No.	Questions
	means the rice growing season). It lasts from May to mid - October. The local people believe that Durga Puja in October announces the end of rain. After that, there may be short winter showers, and the spring showers in March and April. Finally begins the big rain in May ; proper rain storms accompanied by heart-stopping lightning and ear-splitting thunder, just like a light and sound show that can go on for hours. This is the season when people use the word 'sezuo' to refer to the week-long rains, when clothes don't dry and smell of mould, when fungus forms on the floor and when you cannot see the moon or the stars because of the rain clouds. But you learn not to complain. Rain, after all, is the farmer's friend and brings food to the table. Rituals and festivals centre around the agricultural rhythm of life, which is occupation of about 70 percent of the population. Once the monsoon is set in, field work is carried out in earnest and the work of uprooting and transplanting paddy in flooded terrace fields is done. The months of hard labour are June, July and August. In August, rain also called 'phrogii', is a sign that the time for cultivation is over. If any new grain seeds are sown, they may not sprout; even if they do sprout, they are not likely to bear grain. The rain acts as a kind of farmer's almanac. The urban population of school goers and office-goers naturally dislikes the monsoon and its accompanying problems of landslides, muddy streets and periodic infections. One needs to have the heart of a farmer to remain grateful for the watery days, and be able to observe the many kinds of rain. Each rain period has a job to fulfil; October rain helps garlic bulbs to form, while 'kumunyo' rain helps the rice bear grain. End October is the most beautiful month in the Naga hills, as the fields turn gold and wild flowers bloom over the slopes, all heralding the harvest. Prayers go up for protecting the fields from storms, and the rains to retreat because the grain needs to stand in the sun and ripen. The rain does retreat so
