Time : 1¼ Hours

Total Questions : 100

Max. Marks : 100

Roll No. _____ (in figure) _____ (in words)

Name : _____ Father's Name : _____

Mother's Name : _____ Date of Examination : _____

(Signature of the candidate)

(Signature of the Invigilator)

CANDIDATES MUST READ THE FOLLOWING INFORMATION/ INSTRUCTIONS BEFORE STARTING THE QUESTION PAPER.

1. All questions are compulsory.
2. The candidates must return the Question book-let as well as OMR answer-sheet to the Invigilator concerned before leaving the Examination Hall, failing which a case of use of unfair-means / mis-behaviour will be registered against him / her, in addition to lodging of an FIR with the police. Further the answer-sheet of such a candidate will not be evaluated.
3. Keeping in view the transparency of the examination system, carbonless OMR Sheet is provided to the candidate so that a copy of OMR Sheet may be kept by the candidate.
4. Question Booklet along with answer key of all the A,B,C and D code will be uploaded on the university website after the conduct of Entrance Examination. In case there is any discrepancy in the Question Booklet/Answer Key, the same may be brought to the notice of the Controller of Examinations in writing within 24 hours of uploading the same on the University Website. Thereafter, no complaint in any case, will be considered.
5. The candidate MUST NOT do any rough work or writing in the OMR Answer-Sheet. Rough work, if any, may be done in the question book-let itself. Answers MUST NOT be ticked in the Question book-let.
6. There will be no negative marking. Each correct answer will be awarded one full mark. Cutting, erasing, overwriting and more than one answer in OMR Answer-Sheet will be treated as incorrect answer.
7. Use only Black or Blue **BALL POINT PEN** of good quality in the OMR Answer-Sheet.
8. BEFORE ANSWERING THE QUESTIONS, THE CANDIDATES SHOULD ENSURE THAT THEY HAVE BEEN SUPPLIED CORRECT AND COMPLETE BOOK-LET. COMPLAINTS, IF ANY, REGARDING MISPRINTING ETC. WILL NOT BE ENTERTAINED 30 MINUTES AFTER STARTING OF THE EXAMINATION.

Question No.	Questions
1.	'The man is no fool'. Which literary device is used in the statement? (1) Euphemism (2) Periphrasis (3) Litotes (4) Epigram
2.	'I am myself personally responsible for this,' is an example of what figure of speech? (1) Hyperbole (2) Tautology (3) Apostrophe (4) Anaphora
3.	What are the figures of speech used in the following lines by Blake? "Tyger, tiger, burning bright In the forest of the night What immortal hand or eye Could frame thy fearful symmetry?" (1) Simile and personification (2) Irony and synecdoche (3) Apostrophe and synecdoche (4) Metonymy and apostrophe
4.	Hamlet, lying wounded, says to his friend, "Horatio, I am dead." This is an example of? (1) Protasis (2) Anacrusis (3) Prolepsis (4) Pun
5.	"You have seen how a man was made a slave; you shall see how a slave was made a man" is an example of? (1) Bathos (2) Epistrophe (3) Chiasmus (4) Anti-Climax
6.	A pause marking a rhythmic point of division in a line of poetry is called a/an? (1) Lamb (2) Foot (3) Caesura (4) Kenning
7.	A dactylic (the noun is dactyl) consists of? (1) A stressed syllable followed by an unstressed syllable. (2) An unstressed syllable followed by a stressed syllable. (3) A stressed syllable followed by two unstressed syllables. (4) Two stressed syllables followed by two unstressed syllables.

Question No.	Questions
8.	"The ploughman homeward plods his weary way" is an example of? (1) Oxymoron (2) Litotes (3) Antithesis (4) Hypallage
9.	'Aposiopesis' is a rhetorical device in which (complete the sentence with correct option) (1) A speech is completed but half-heartedly. (2) A speech is completed on a sad note and often reflects a pessimistic ending. (3) A speech is concluded on a happy note. (4) A speech is broken off abruptly and the sentence is left unfinished
10.	"He gave the beggers a few coppers" is an example of? (1) Synecdoche (2) Metonymy (3) Simile (4) Metaphor
11.	Fate smiles _____ those who untringly grapple with stark realities of life. (1) With (2) Over (3) On (4) Round
12.	For questions no. 12 and 13, Please read and find Error detection:- Little water that was left/in the bottle was not enough/to quench the thirst of two persons/ (1) little water that was left (2) in the bottle was not enough (3) to quench the thirst of two persons (4) no error
13.	This project which is funded/by the United Nations/ has helped over four/ lakh Indians overcome poverty. (1) This project which is funded (2) by the United Nations (3) has helped over four (4) lakh Indians overcome poverty

Question No.	Questions
14.	Pick out the most effective word from the given words to fill in the blank to make the sentence meaningfully complete: _____ he is disabled, he is an excellent singer. (1) Despite (2) Though (3) Even (4) Unfortunately
15.	He is willing to make a concession _____ the demands of his employees. (1) To (2) On (3) For (4) At
16.	Find the synonym of the word <i>Outlandish</i> :- (1) Unsavoury (2) Unique (3) Wondrous (4) Strange
17.	Find the antonym of the word <i>Obdurate</i> :- (1) Daring (2) Nocturnal (3) Yielding (4) Simpleton
18.	Change into indirect speech: Raisa: "Could you bring my book tonight?" (1) She had asked me to bring her book that night. (2) She asked me to bring her book tonight. (3) She asked me to bring her book that night. (4) She did ask me could I bring her book that night.
19.	I reiterated, "I Don't care about the job." (1) I reiterated that I did not care about the job. (2) I repeatedly said that I cared about the job. (3) I said, again and again, that I did not care about the job. (4) I reiterated I did not care about the job.
20.	Out of the four alternatives choose the one which can be substituted for the given words/phrase He was down in the mouth as he was defeated in the elections. (1) Unable to speak (2) Very depressed (3) Very angry (4) Very confused

Question No.	Questions
21.	<p>Out of the four alternatives choose the one which can be substituted for the given words/phrase</p> <p>You can easily overcome this situation if you <u>keep your head</u>.</p> <p>(1) Keep faith in (2) Believe in (3) Trust others (4) Remain calm</p>
22.	<p>Change the voice of the given sentences (Sentences 22-23)</p> <p>We were paid a visit by Mr. Banerjee.</p> <p>(1) Mr. Banerjee had visited us. (2) Mr. Banerjee visited us. (3) Mr. Banerjee had paid us a visit. (4) Mr. Banerjee paid us a visit.</p>
23.	<p>Little strokes fell great oaks.</p> <p>(1) Great oaks fell with little strokes (2) Great oaks were felled by little strokes (3) Great oaks can be felled with little strokes. (4) Great oaks are felled by little strokes.</p>
24.	<p>Which parts of speech do the underlined words show?</p> <p>She brought me <u>round</u> to her views?</p> <p>(1) Verb (2) Adverb (3) Noun (4) Preposition</p>
25.	<p>Choose the correct option:-</p> <p>Transformation of the sentence: Simple to Compound</p> <p>He must work hard to make up for the lost time.</p> <p>(1) He must work hard, cover the lost time. (2) Making up for the lost time he must work hard. (3) He must work hard and make up for the lost time. (4) Working hard will make up for the lost time.</p>
26.	<p>Fill in the blanks with the correct option:-</p> <p>_____, they slept soundly.</p> <p>(1) Hot though was the night air (2) Hot though the night air was (3) Hot was the night air that (4) Hot although the night air was</p>

Question No.	Questions
27.	<p>Identify the clause of the underlined part:</p> <p>Stand still, <u>if you value your life</u>.</p> <p>(1) Principal clause (2) Noun clause (3) Adjective/relative clause (4) Adverb clause</p>
28.	<p>He _____ nervous until I told him to sit down and relax. (Fill in the blank)</p> <p>(1) has been looking (2) looked (3) was looking (4) may look</p>
29.	<p>You _____ have hurried but you did. (Fill in the blank)</p> <p>(1) couldn't (2) mayn't (3) needn't (4) ought to</p>
30.	<p>Ram has revised all day. He _____ be ready for his examination. (Fill in the blanks)</p> <p>(1) Should (2) Can (3) May (4) Would</p>
31.	<p>Identify the clause of the underlined part:</p> <p>He came in <u>while I was out</u>.</p> <p>(1) Principal clause (2) Noun clause (3) Adjective/relative clause (4) Adverb clause</p>
32.	<p>Identify the option in which the word 'right' is used as noun.</p> <p>(1) This is a fault that will right itself (2) He is the right man for the position. (3) I ask it as a right (4) He stood right in my eyes.</p>
33.	<p>The old newspapers were thrown away by me. (Change the voice)</p> <p>(1) I throw the old newspapers away. (2) The old newspapers are thrown away. (3) I am throwing away the old newspapers. (4) I threw away the old newspapers.</p>

Question No.	Questions
	<p>Read the following passage and answer questions:</p> <p>There is a common thread running through the unravelling of India's statistical system. A modern economy with sound institutions is characterized by the timely dissemination of credible data. A long-term policy needs an empirical basis and issues of the veracity of data will influence investment decisions. In a country with a large population of youth, data on national development, especially in core sectors like agriculture, industry, health, education and employment, will be critical. Here comes the role of the National Statistical Commission, a body created to establish standards. Questioning the data veracity is a global phenomenon. The official narrative is always questioned by the people on the other side of the fence. Dissemination of economic data is essential to reach out to the public who lived their reality. Lack of data will adversely impact the quality of national policies. India must start strengthening institutions such as the central statistical commission. These institutions must be granted autonomy and insulated from external interferences. Enhanced operational autonomy will make their work credible. An indicator of operational autonomy is their ability to stick to a dissemination calendar regardless of what the data indicates.</p>
41.	<p>What is important for a modern economy? (1) A common thread (2) Dissemination of credible data (3) Unravelling of statistical system (4) Selective Distribution of Data.</p>
42.	<p>What is the work of National Statistical Commission? (1) Establishing Standards (2) Questioning Data Veracity (3) Questioning Official Narrative (4) Supporting the Public Perception</p>
43.	<p>What does the passage ultimately suggest to National Statistical Commission? (1) Restricting policy decisions (2) Critically examining data veracity (3) Stick to a calendar of data dissemination. (4) Support development in core sectors</p>

PG-EE-2022 (English) Code-A

(7)

Question No.	Questions
44.	Investment decisions are impacted by: (1) Youth Population (2) National Development (3) Issues of Data Veracity (4) Establishment of National Institutes
45.	How can the quality of national policies be improved? (1) By living reality (2) By supporting external interferences (3) By controlling autonomous institutions (4) By enhanced operational freedom
<p>Read the following passage and answer the questions:-</p> <p>Perhaps what bothered the media in the 1970s was the shift in liberty being suggested. For centuries, journalists had operated on the basis of negative liberty, or freedom from external restraints. Suddenly, however, the thrust was positive freedom, a freedom for the pursuit of some predetermined goals. This new social responsibility seems grounded on a school of thought that sees negative liberty as insufficient and ineffective, somewhat like telling people they are free to walk without first making sure they are not crippled. Who better than the government is able to provide humanity with appropriate means? A government, even a democratic government, is seen by social responsibility adherents as the only force strong enough to guarantee the effective operation of freedom. This does not mollify observers who find social responsibility to be only a slightly disguised version of authoritarianism. Media philosopher John Merrill has been one of the most outspoken critics of the theory. To him, the proposition that pluralism of ideas should be governmentally mandated is ludicrous. Journalists, he says, must retain their freedom to make their own news and editorial judgements. Even well-intentioned attempts by outside groups seeking media improvement are self-serving, and inevitably lessen the autonomy of journalists, Merrill maintains. This leads us to the issue of media autonomy</p>	
46.	<p>What was the basis of the operation of journalists earlier?</p> <p>(1) Freedom of limited choices (2) Social responsibility (3) Free from outside pressure (4) Government control</p>

Question No.	Questions
47.	According to John Merrill, seeking improvement in media, is: (1) Appropriate (2) Well-intentioned (3) Inevitable (4) Self-serving
48.	The passage critically analyses: (1) Operation of journalists (2) Mandate for government (3) Social responsibility theory of media (4) Regimented autonomy of journalists
49.	Some scholars consider social responsibility aspect of media as; (1) Negative freedom (2) Pluralism (3) Democratization of media (4) Authoritarianism
50.	Positive freedom means: (1) Grounded thought (2) Pursuing certain set goals (3) Freedom with conditions (4) Providing identified means
<p>Read the following passage, and answer the questions:-</p> <p>Skinner's system, reinforcement is automatic, almost by definition. Perhaps the most convincing demonstration of the automatic effect of a reinforcer is what Skinner (1948) has called "superstitious behaviour". In this situation, an event known to be reinforcing is presented intermittently without respect to what the subject is doing. But if it is doing anything (and this can be made likely through deprivation, etc.), the response just prior to the delivery of the reinforcer is strengthened, as evidenced by an increase in its rate of emission. The subject comes to "act as if" the response that has been fortuitously strengthened somehow produces the reinforcement. This occurs even though the reinforcer is actually delivered by a mechanical device that is in no way responsive to the subject's behaviour. The automatic effect of reinforcement is also illustrated in Skinner's effective techniques of shaping behaviour. These procedures could hardly have sprung from a point of view that regarded all behaviour as elicited. But with the organism viewed as "emitting" the varied responses already in his repertoire, it was</p>	

SET-X
Code-A

Question No.	Questions
51	<p>an easy step to conceive of shaping. If the observer simply controlled the quick presentation of a reinforcer, then he could strengthen any behaviour the organism happened to emit. Responses not in the subject's repertoire could then be built into it by appropriate arrangements of environmental conditions and the successive approximation technique.</p> <p>The procedure of shaping a subject's behaviour is related to his</p> <p>(a) Susceptibility (b) Desire for reinforcement (c) Responses already in his repertoire (d) Responses reinforced by approximation techniques</p> <p>Choose the correct answer from the option given below:-</p> <p>(1) (a) and (b) only (2) (b) and (c) only (3) (c) and (d) only (4) (a) and (d) only</p>
52.	<p>According to Skinner, the superstitious behaviour of individual is the outcome of</p> <p>(1) Constant exposure to an event (2) Exposure to an event without regularity (3) Occasional exposure to an event (4) Natural exposure to an event</p>
53.	<p>The delivery of the reinforcer gets strengthened due to</p> <p>(1) The subject's involvement in the event (2) Increase in the rate of reinforcement (3) Factors such as deprivation (4) The use of a mechanical device</p>
54.	<p>The responses that are not in the emission list of a subject, can be observed by</p> <p>(1) Coercive measures (2) Creating suitable environmental conditions (3) Inhibiting his natural emission behaviour (4) Using mechanical devices for reinforcement</p>

8.	Which book won the Booker Prize in Literature in the year 2022? (1) Cursed Bunny (2) The Books of Jacob (3) Heaven (4) Tomb of Sand
9.	Who won Pulitzer Prize for both Poetry and Fiction? (1) Robert Penn Warren (2) Robert Frost (3) Edward Albee (4) Samuel Barber
10.	Who won Sahitya Akademi Award 2021 in English novel? (1) Sanjiv Venkar (2) Kiran Desai (3) Namita Gokhale (4) Sanjiv Varavara

Read the following passage, and answer the questions:-
Skinner's system, reinforcement is automatic, almost by definition. Perhaps the most convincing demonstration of the automatic effect of a reinforcer is what Skinner (1948) has called "superstitious behaviour". In this situation, an event known to be reinforcing is presented intermittently without respect to what the subject is doing. But if it is doing anything (and this can be made likely through deprivation, etc.), the response just prior to the delivery of the reinforcer is strengthened, as evidenced by an increase in its rate of emission. The subject comes to "act as if" the response that has been fortuitously strengthened somehow produces the reinforcement. This occurs even though the reinforcer is actually delivered by a mechanical device that is in no way responsive to the subject's behaviour. The automatic effect of reinforcement is also illustrated in Skinner's effective techniques of shaping behaviour. These procedures could hardly have sprung from a point of view that regarded all behaviour as elicited. But with the organism

SET-X
Code-B

Question No.	Questions
11	viewed as "emitting" the varied responses already in his repertoire, it was an easy step to conceive of shaping. If the observer simply controlled the quick presentation of a reinforcer, then he could strengthen any behaviour the organism happened to emit. Responses not in the subject's repertoire could then be built into it by appropriate arrangements of environmental conditions and the successive approximation technique. The procedure of shaping a subject's behaviour is related to his (a) Susceptibility (b) Desire for reinforcement (c) Responses already in his repertoire (d) Responses reinforced by approximation techniques Choose the correct answer from the option given below:- (1) (a) and (b) only (2) (b) and (c) only (3) (c) and (d) only (4) (a) and (d) only
12.	According to Skinner, the superstitious behaviour of individual is the outcome of (1) Constant exposure to an event (2) Exposure to an event without regularity (3) Occasional exposure to an event (4) Natural exposure to an event
13.	The delivery of the reinforcer gets strengthened due to (1) The subject's involvement in the event (2) Increase in the rate of reinforcement (3) Factors such as deprivation (4) The use of a mechanical device
14.	The responses that are not in the emission list of a subject, can be observed by? (1) Coercive measures (2) Creating suitable environmental conditions (3) Inhibiting his natural emission behaviour (4) Using mechanical devices for reinforcement

SET-X

	<p>Read the following passage and answer questions:</p> <p>There is a common thread running through the unravelling of India's statistical system. A modern economy with sound institutions is characterized by the timely dissemination of credible data. A long-term policy needs an empirical basis and issues of the veracity of data will influence investment decisions. In a country with a large population of youth, data on national development, especially in core sectors like agriculture, industry, health, education and employment, will be critical. Here comes the role of the National Statistical Commission, a body created to establish standards. Questioning the data veracity is a global phenomenon. The official narrative is always questioned by the people on the other side of the fence. Dissemination of economic data is essential to reach out to the public who lived their reality. Lack of data will adversely impact the quality of national policies. India must start strengthening institutions such as the central statistical commission. These institutions must be granted autonomy and insulated from external interferences. Enhanced operational autonomy will make their work credible. An indicator of operational autonomy is their ability to stick to a dissemination calendar regardless of what the data indicates.</p>
71.	What is important for a modern economy? (1) A common thread (2) Dissemination of credible data (3) Unravelling of statistical system (4) Selective Distribution of Data.

Question No.	Questions
72.	<p>What is the work of National Statistical Commission?</p> <p>(1) Establishing Standards (2) Questioning Data Veracity (3) Questioning Official Narrative (4) Supporting the Public Perception</p>
73.	<p>What does the passage ultimately suggest to National Statistical Commission?</p> <p>(1) Restricting policy decisions (2) Critically examining data veracity (3) Stick to a calendar of data dissemination. (4) Support development in core sectors</p>
74.	<p>Investment decisions are impacted by:</p> <p>(1) Youth Population (2) National Development (3) Issues of Data Veracity (4) Establishment of National Institutes</p>
75.	<p>How can the quality of national policies be improved?</p> <p>(1) By living reality (2) By supporting external interferences (3) By controlling autonomous institutions (4) By enhanced operational freedom</p>
	<p>Read the following passage and answer the questions:-</p> <p>Perhaps what bothered the media in the 1970s was the shift in liberty being suggested. For centuries, journalists had operated on the basis of negative liberty, or freedom from external restraints. Suddenly, however, the thrust was positive freedom, a freedom for the pursuit of some predetermined goals. This new social responsibility seems grounded on a school of thought that sees negative liberty as insufficient and ineffective, somewhat like telling people they are free to walk without first making</p>

Question No.	Questions
76.	<p>sure they are not crippled. Who better than the government is able to provide humanity with appropriate means? A government, even a democratic government, is seen by social responsibility adherents as the only force strong enough to guarantee the effective operation of freedom. This does not mollify observers who find social responsibility to be only a slightly disguised version of authoritarianism. Media philosopher John Merrill has been one of the most outspoken critics of the theory. To him, the proposition that pluralism of ideas should be governmentally mandated is ludicrous. Journalists, he says, must retain their freedom to make their own news and editorial judgements. Even well-intentioned attempts by outside groups seeking media improvement are self-serving, and inevitably lessen the autonomy of journalists, Merrill maintains. This leads us to the issue of media autonomy</p> <p>76. What was the basis of the operation of journalists earlier?</p> <p>(1) Freedom of limited choices (2) Social responsibility (3) Free from outside pressure (4) Government control</p>
77.	<p>According to John Merrill, seeking improvement in media, is:</p> <p>(1) Appropriate (2) Well-intentioned (3) Inevitable (4) Self-serving</p>
78.	<p>The passage critically analyses:</p> <p>(1) Operation of journalists (2) Mandate for government (3) Social responsibility theory of media (4) Regimented autonomy of journalists</p>
79.	<p>Some scholars consider social responsibility aspect of media as;</p> <p>(1) Negative freedom (2) Pluralism (3) Democratization of media (4) Authoritarianism</p>

A modern economy with sound institutions is characterized by the timely dissemination of credible data. A long-term policy needs an empirical basis and issues of the veracity of data will influence investment decisions. In a country with a large population of youth, data on national development, especially in core sectors like agriculture, industry, health, education and employment, will be critical. Here comes the role of the National Statistical Commission, a body created to establish standards. Questioning the data veracity is a global phenomenon. The official narrative is always questioned by the people on the other side of the fence. Dissemination of economic data is essential to reach out to the public who lived their reality. Lack of data will adversely impact the quality of national policies. India must start strengthening institutions such as the central statistical commission. These institutions must be granted autonomy and insulated from external interferences. Enhanced operational autonomy will make their work credible. An indicator of operational autonomy is their ability to stick to a dissemination calendar regardless of what the data indicates.</p> <p>1. What is important for a modern economy?</p> <ol style="list-style-type: none">(1) A common thread(2) Dissemination of credible data(3) Unravelling of statistical system(4) Selective Distribution of Data.
2.	<p>What is the work of National Statistical Commission?</p> <ol style="list-style-type: none">(1) Establishing Standards(2) Questioning Data Veracity(3) Questioning Official Narrative(4) Supporting the Public Perception

Question No.	Questions
3.	<p>What does the passage ultimately suggest to National Statistical Commission?</p> <p>(1) Restricting policy decisions (2) Critically examining data veracity (3) Stick to a calendar of data dissemination. (4) Support development in core sectors</p>
4.	<p>Investment decisions are impacted by:</p> <p>(1) Youth Population (2) National Development (3) Issues of Data Veracity (4) Establishment of National Institutes</p>
5.	<p>How can the quality of national policies be improved?</p> <p>(1) By living reality (2) By supporting external interferences (3) By controlling autonomous institutions (4) By enhanced operational freedom</p>
	<p>Read the following passage and answer the questions:-</p> <p>Perhaps what bothered the media in the 1970s was the shift in liberty being suggested. For centuries, journalists had operated on the basis of negative liberty, or freedom from external restraints. Suddenly, however, the thrust was positive freedom, a freedom for the pursuit of some predetermined goals. This new social responsibility seems grounded on a school of thought that sees negative liberty as insufficient and ineffective, somewhat like telling people they are free to walk without first making sure they are not crippled. Who better than the government is able to provide humanity with appropriate means? A government, even a democratic government, is seen by social responsibility adherents as the only force strong enough to guarantee the effective operation of freedom. This does not mollify observers who find social responsibility to be only a slightly disguised version of authoritarianism. Media philosopher John Merrill has been one of the most outspoken critics of the theory. To him,</p>

Question No.	Questions
6.	<p>the proposition that pluralism of ideas should be governmentally mandated is ludicrous. Journalists, he says, must retain their freedom to make their own news and editorial judgements. Even well-intentioned attempts by outside groups seeking media improvement are self-serving, and inevitably lessen the autonomy of journalists, Merrill maintains. This leads us to the issue of media autonomy</p> <p>6. What was the basis of the operation of journalists earlier?</p> <p>(1) Freedom of limited choices (2) Social responsibility (3) Free from outside pressure (4) Government control</p>
7.	<p>According to John Merrill, seeking improvement in media, is:</p> <p>(1) Appropriate (2) Well-intentioned (3) Inevitable (4) Self-serving</p>
8.	<p>The passage critically analyses:</p> <p>(1) Operation of journalists (2) Mandate for government (3) Social responsibility theory of media (4) Regimented autonomy of journalists</p>
9.	<p>Some scholars consider social responsibility aspect of media as;</p> <p>(1) Negative freedom (2) Pluralism (3) Democratization of media (4) Authoritarianism</p>
10.	<p>Positive freedom means:</p> <p>(1) Grounded thought (2) Pursuing certain set goals (3) Freedom with conditions (4) Providing identified means</p>

91.	<p>Read the following passage, and answer the questions:-</p> <p>Skinner's system, reinforcement is automatic, almost by definition. Perhaps the most convincing demonstration of the automatic effect of a reinforcer is what Skinner (1948) has called "superstitious behaviour". In this situation, an event known to be reinforcing is presented intermittently without respect to what the subject is doing. But if it is doing anything (and this can be made likely through deprivation, etc.), the response just prior to the delivery of the reinforcer is strengthened, as evidenced by an increase in its rate of emission. The subject comes to "act as if" the response that has been fortuitously strengthened somehow produces the reinforcement. This occurs even though the reinforcer is actually delivered by a mechanical device that is in no way responsive to the subject's behaviour. The automatic effect of reinforcement is also illustrated in Skinner's effective techniques of shaping behaviour. These procedures could hardly have sprung from a point of view that regarded all behaviour as elicited. But with the organism viewed as "emitting" the varied responses already in his repertoire, it was an easy step to conceive of shaping. If the observer simply controlled the quick presentation of a reinforcer, then he could strengthen any behaviour the organism happened to emit. Responses not in the subject's repertoire could then be built into it by appropriate arrangements of environmental conditions and the successive approximation technique.</p> <p>The procedure of shaping a subject's behaviour is related to his</p> <p>(a) Susceptibility (b) Desire for reinforcement (c) Responses already in his repertoire (d) Responses reinforced by approximation techniques</p>

31	<p>Read the following passage, and answer the questions:- Skinner's system, reinforcement is automatic, almost by definition. Perhaps the most convincing demonstration of the automatic effect of a reinforcer is what Skinner (1948) has called "superstitious behaviour". In this situation, an event known to be reinforcing is presented intermittently without respect to what the subject is doing. But if it is doing anything (and this can be made likely through deprivation, etc.), the response just prior to the delivery of the reinforcer is strengthened, as evidenced by an increase in its rate of emission. The subject comes to "act as if" the response that has been fortuitously strengthened somehow produces the reinforcement. This occurs even though the reinforcer is actually delivered by a mechanical device that is in no way responsive to the subject's behaviour. The automatic effect of reinforcement is also illustrated in Skinner's effective techniques of shaping behaviour. These procedures could hardly have sprung from a point of view that regarded all behaviour as elicited. But with the organism viewed as "emitting" the varied responses already in his repertoire, it was an easy step to conceive of shaping. If the observer simply controlled the quick presentation of a reinforcer, then he could strengthen any behaviour the organism happened to emit. Responses not in the subject's repertoire could then be built into it by appropriate arrangements of environmental conditions and the successive approximation technique.</p> <p>The procedure of shaping a subject's behaviour is related to his</p> <p>(a) Susceptibility (b) Desire for reinforcement (c) Responses already in his repertoire (d) Responses reinforced by approximation techniques</p> <p>Choose the correct answer from the option given below:-</p> <p>(1) (a) and (b) only (2) (b) and (c) only (3) (c) and (d) only (4) (a) and (d) only</p>

Question No.	Questions
32.	According to Skinner, the superstitious behaviour of individual is the outcome of (1) Constant exposure to an event (2) Exposure to an event without regularity (3) Occasional exposure to an event (4) Natural exposure to an event
33.	The delivery of the reinforcer gets strengthened due to (1) The subject's involvement in the event (2) Increase in the rate of reinforcement (3) Factors such as deprivation (4) The use of a mechanical device
34.	The responses that are not in the emission list of a subject, can be observed by? (1) Coercive measures (2) Creating suitable environmental conditions (3) Inhibiting his natural emission behaviour (4) Using mechanical devices for reinforcement
35.	The example of a mechanical device reinforcing the subject's behaviour demonstrates (1) The automatic effect of reinforcement (2) The illusion of reinforcement (3) The discrepancy in subject's behaviour (4) The belief that every reaction is an act of reinforcement
36.	Train A leaves Mumbai for Pune at 5:30 a.m. and reaches Pune at 9:30 a.m. Train B leaves Pune for Mumbai at 7:30 a.m. and reaches Mumbai at 13:30 hrs. At what time will these two trains meet? (1) 7:42 a.m. (2) 8:42 a.m. (3) 9:12 a.m. (4) 8:48 a.m.

	<p>Read the following passage and answer questions:</p> <p>There is a common thread running through the unravelling of India's statistical system. A modern economy with sound institutions is characterized by the timely dissemination of credible data. A long-term policy needs an empirical basis and issues of the veracity of data will influence investment decisions. In a country with a large population of youth, data on national development, especially in core sectors like agriculture, industry, health, education and employment, will be critical. Here comes the role of the National Statistical Commission, a body created to establish standards. Questioning the data veracity is a global phenomenon. The official narrative is always questioned by the people on the other side of the fence. Dissemination of economic data is essential to reach out to the public who lived their reality. Lack of data will adversely impact the quality of national policies. India must start strengthening</p>

Question No.	Questions
61.	<p>institutions such as the central statistical commission. These institutions must be granted autonomy and insulated from external interferences. Enhanced operational autonomy will make their work credible. An indicator of operational autonomy is their ability to stick to a dissemination calendar regardless of what the data indicates.</p> <p>What is important for a modern economy?</p> <ol style="list-style-type: none"> (1) A common thread (2) Dissemination of credible data (3) Unravelling of statistical system (4) Selective Distribution of Data.
62.	<p>What is the work of National Statistical Commission?</p> <ol style="list-style-type: none"> (1) Establishing Standards (2) Questioning Data Veracity (3) Questioning Official Narrative (4) Supporting the Public Perception
63.	<p>What does the passage ultimately suggest to National Statistical Commission?</p> <ol style="list-style-type: none"> (1) Restricting policy decisions (2) Critically examining data veracity (3) Stick to a calendar of data dissemination. (4) Support development in core sectors
64.	<p>Investment decisions are impacted by:</p> <ol style="list-style-type: none"> (1) Youth Population (2) National Development (3) Issues of Data Veracity (4) Establishment of National Institutes
65.	<p>How can the quality of national policies be improved?</p> <ol style="list-style-type: none"> (1) By living reality (2) By supporting external interferences (3) By controlling autonomous institutions (4) By enhanced operational freedom

Question No.	Questions
	<p>Read the following passage and answer the questions:-</p> <p>Perhaps what bothered the media in the 1970s was the shift in liberty being suggested. For centuries, journalists had operated on the basis of negative liberty, or freedom from external restraints. Suddenly, however, the thrust was positive freedom, a freedom for the pursuit of some predetermined goals. This new social responsibility seems grounded on a school of thought that sees negative liberty as insufficient and ineffective, somewhat like telling people they are free to walk without first making sure they are not crippled. Who better than the government is able to provide humanity with appropriate means? A government, even a democratic government, is seen by social responsibility adherents as the only force strong enough to guarantee the effective operation of freedom. This does not mollify observers who find social responsibility to be only a slightly disguised version of authoritarianism. Media philosopher John Merrill has been one of the most outspoken critics of the theory. To him, the proposition that pluralism of ideas should be governmentally mandated is ludicrous. Journalists, he says, must retain their freedom to make their own news and editorial judgements. Even well-intentioned attempts by outside groups seeking media improvement are self-serving, and inevitably lessen the autonomy of journalists, Merrill maintains. This leads us to the issue of media autonomy</p>
66.	<p>What was the basis of the operation of journalists earlier?</p> <ol style="list-style-type: none"> (1) Freedom of limited choices (2) Social responsibility (3) Free from outside pressure (4) Government control
67.	<p>According to John Merrill, seeking improvement in media, is:</p> <ol style="list-style-type: none"> (1) Appropriate (2) Well-intentioned (3) Inevitable (4) Self-serving
68.	<p>The passage critically analyses:</p> <ol style="list-style-type: none"> (1) Operation of journalists (2) Mandate for government (3) Social responsibility theory of media (4) Regimented autonomy of journalists
