Academic Session 2020-21:-

Sr. No.	Title of minor research Project	Name of Project's Investigator	w.e.f.
1.	Perception of Students about Important Causes of Students' Unrest: A Study of Haryana University Campuses. Students' unrest in universities is a worldwide phenomenon. There is hardly a country that has been free from it. Common factors responsible for students' unrest are managerial, social, academic, environmental, personal psychological and political issues. Focus of the study is to analyze the factors promoting the Students' unrest and agitation in the campuses of Haryana universities, to study the relationship of students' unrest with their personality types- A&B and self efficacy of the students and to identify the alternative strategies to manage students' unrest. An exploratory cum descriptive research design will be used for the study.	Dr. Aarti Project Director Assistant Professor, IMSAR, M.D. University, Rohtak	23.06.2021 to 22.06.2023 Submitted on 27.07.2023
2.	Positive Youth Development: A Catalyst for Social-Economic Change and Holistic Wellness. Youth are resource and agents of social and community change. Taping this potent resource by empowering youth through positive youth development can help in bringing desired social and economic change in any community. The present research aims to assess the Five Cs of positive youth development (PYD), and explore their relationship with youth's flourishing, happiness, sense of community and civic engagement. The present study also attempts to understand the perception and attitude of youth towards social and economic change.	Dr. Deepti Hooda (Project Director) Associate Professor, Department of Psychology, M.D. University, Rohtak	09.07.2021 to 08.07.2023 Submitted On 05.09.2023
3.	An Analytical Study on Skill Development Schemes for the Youth of Rural Areas in Haryana. Skill development is the process to narrow the gap between the existing skill and the skills required to perform some particular tasks. Majority of Youth resides in Rural Areas specifically in Haryana State, in spite of getting formal education, it is observed that the youth is not employable considering the technological growth and global environment. The government has started many programmes or schemes to make this rural youth employable according to the present scenario. The present study will try to measure the existing status of schemes, awareness level of youth about these schemes implemented by the government. This study will also try to find out the various problems faced by the rural youth	Dr. Jitender Kumar (Project Director) Assistant Professor, IMSAR, M.D. University, Rohtak	09.07.2021 to 08.07.2023 Submitted On 07.02.2024

	of Haryana in taking advantage of these type of various schemes launched by Haryana Government.		
4	<p>Women Micro-Entrepreneurs in Haryana: Training Need Analysis & Curriculum Framework for Soft Skills</p> <p>Micro-Entrepreneurship is being considered as the one of the prominent ways of economic development, employment generation and income generation in the world. It shares the load of job creation, encourages the self-sufficiency with the minimal resources. Worldwide it has been recognized that micro-entrepreneurship is a significant tool for ensuring women empowerment as it leads towards financial independence of women. In Haryana, it is very difficult for women to think about to established their own start-up. The proposed study will make an attempt to examine the factors influencing the professional competencies of women micro-entrepreneurs in Haryana.</p>	<p>Dr. Nidhi (Project Director) Assistant Professor, MDUCPAS, Gurugram.</p>	<p>9.08.2021 to 08.08.2023</p> <p>Submitted on 20.09.2023</p>
