

It is stated that following minor research projects (2023-2024) are ongoing under the CRSIS&EC:-

Sr. No.	Title of minor research Project	Name of Project's Investigator	Tenure of Project
1.	<p>“Exploring major Life concerns of people across Generations in NCR Haryana” The present day societies are adjudged on the basis of the level of life quality or well-being its people do have, that is the extent to which pleasure and satisfaction characterize human existence and the extent to which people can avoid the various miseries which are potentially the lot of each of us. The above said research aims at identifying the major life concerns related to their life satisfaction and subjective well being among adults in selected districts of NCR Haryana.</p>	<p>Prof. Rajbir Singh (Project Director) Adjunct Faculty, CRSIS&EC, M.D. University, Rohtak</p>	<p>10.01.2025 to 10.07.2026</p>
2.	<p>“Economic Concerns and Well-being: A Study of NCR Haryana (Selected Districts)” The economic approach to well-being dates back to the 1930's when Simon Kuznets argued that a nation's welfare can scarcely be inferred just from its national income an advocated for an assessment of well-being. In the 1970's economists constructed metrics to measure societal well-being in terms of utility as expressed in "revealed preferences" that were later used in the assessment of quality of life in health economics. The aim of the study is to identify the major economic concerns of life related towell-being, quality of lifeand to establish a theoretical concept for sustainable well-being among adults.</p>	<p>Prof. Santosh Nandal (Project Director) Adjunct Faculty, CRSIS&EC, M.D. University, Rohtak</p>	<p>07.01.2025 to 07.07.2026</p>
3.	<p>“Social Networks and well-being: A study in Haryana (NCR)” In recent years, social networks have become integral part of our daily lives, profoundly influencing various aspects including communication, information dissemination, and social interaction. There is a growing recognition of their role in enhancing individual and collective well-being. The present study is an attempt to address issues related to the impact of social networks on social well-being, meaningful interactions, misinformation, dissemination of information in fields such as inter-personal ties, education of children, health care, marriage alliances, legal matters etc.</p>	<p>Dr. Neerja Ahlawat (Project Director) Adjunct Faculty, CRSIS&EC, M.D. University, Rohtak</p>	<p>06.01.2025 to 06.07.2026</p>
4.	<p>“Microbial Consortia Development for Sustainable Floral Waste Management” Flowers are an integral part of worship rituals in India and are also used for aesthetic purposes. Floral garlands are often offered as a symbol of beauty and devotion. Many religious traditions involve the use of flowers as symbolic significance playing a pivotal role in ceremonies and spiritual offerings. The generationof floral waste in the context of religious practicesis an important aspect that intricates social, cultural,and environmental dimensions. Amplified use of flowers across cultures results in elevated floral waste. In the view of above problem, the present research proposalwas focusedon addressing the specific issue of floral waste generated in religious places, particularlytemples and aims to contribute to sustainable management of these floral waste. The research explores the</p>	<p>Dr. Pooja Gulati (Project Director) Department of Microbiology, M.D. University, Rohtak</p>	<p>03.01.2025 to 03.07.2026</p>

5.	<p>“Empowering Women and Cultivating Sustainability in Haryana through a Mini Mushroom Cultivation Plant”</p> <p>The proposed project is aligned with the thrust areas outlined by CRSIS&EC, focusing on empowering women and fostering sustainability. By designing and establishing a compact and sustainable mini mushroom cultivation plant, we aim to not only create a source of income but also provide entrepreneurial training and skill development opportunities to deprived women and girl students in Haryana.</p>	Dr. Rajeev Kumar Kapoor (Project Director) Department of Microbiology M.D. University, Rohtak	08.01.2025 to 08.07.2026
6.	<p>“Social Entrepreneurial Intentions and value creation among the students of Higher education”</p> <p>Social entrepreneurship is an approach by individuals, groups, start-up companies or entrepreneurs, in which they develop, fund and implement solutions to social, cultural, or environmental issues. It’s important to note that a business can be concerned with and contribute to social causes without being a social-entrepreneurial venture. Social entrepreneurs try to fix problems. More specifically, social entrepreneurs identify a problem that the people in the previous section face. Usually, during the brainstorm phase of an entity, the social entrepreneur will link the two together. For example, social entrepreneurs may try to defeat homelessness in their region. A social entrepreneur in this situation tries to help certain people (low income individuals) with a problem (lack of available housing)</p>	Dr. Aarti (Project Director) IMSAR, M.D. University, Rohtak	20.01.2025 to 20.07.2026
