According to CPCB guidelines, 'poor' AQI can cause respiratory difficulties during extended exposure, while 'moderate' AQI can precipitate respiratory discomfort in people with asthma or cardiopulmonary conditions.

## Kicks off survey

from local residents could be valuable in identifying and reporting illegal activities and called for police to maintain strict surveillance at vulnerable locations. The team also examined a site near the Rajasthan border where a hill was reportedly demolished recently.

The Aravali range, one of the oldest mountain ranges in India, has long been a target for illegal mining operations despite its ecological importance and protected status in many areas.
