### INFORMATION BROCHURE AND INSTRUCTIONS FOR INTERNATIONAL STUDENTS

#### Centre for International Academic Affairs

The National Education Policy (NEP) 2020 envisages a new and forward-looking vision for India's higher education system. Internationalization of higher education is an essential aspect of the National Education Policy 2020. The need to internationalize certain aspects of higher education, while making all higher education relevant internationally has been a major area of focus. Internationalization of higher education is the process of integrating an international and intercultural dimension in higher education. Opportunities to attract international students, academics and funding are growing, and many Indian Higher Educational Institutions (HEIs) are now committed to increase their international outreach.

In order to facilitate the internationalization of Indian HEIs, The Centre for International Academic Affairs (CIAA) at Maharshi Dayanand University, Rohtak, serves as a beacon of international academic exchange and support for the global student community. Acting as the nodal agency, the CIAA is dedicated to providing a comprehensive suite of services to international students, ensuring their educational journey is seamless and enriching. From the moment of their interest in registration, through navigating the nuances of programs, fee structures, eligibility criteria, visa requirements, accommodation, health insurance, and beyond, the CIAA leverages a unique 'single window system'. This efficiency is further bolstered by a dedicated online portal specifically designed for International student, streamlining their academic and administrative queries responsively and effectively.

MDU, Rohtak offers a conducive educational environment and provide affordable cost for higher studies. The CIAA not only focuses on the academic excellence of International students, but also encourages their participation in a wide range of extra-curricular activities. This holistic approach fosters a vibrant multicultural and interdisciplinary learning environment, enriching students' educational experiences, and preparing them for global challenges. By doing so, the CIAA is setting a new paradigm in educational support, promoting not just inbound internationalization but also fostering outbound mobility of students.

This expansion is rooted in the understanding that global exposure and international academic experiences are invaluable in today's interconnected world. It aligns with the CIAA's commitment to create a truly global educational ecosystem, where students, irrespective of their geographical origins, can access world-class education and opportunities.

During the journey, the students from following countries have been Alumni of MDU.
